

Klingstone Paths Pump

Recommended Installation Pump

Our recommended pump is available for purchase for \$550.00. For repeated use, Pump Flush must be used to completely clear the pump of all residue before and after each use. Klingstone Paths Pump Flush is available for \$132.50 per 5 gallon pail. One application wand and uptake line are included with the aforementioned sale. Additional materials that installers will need are listed below.

Additional Materials

Air Compressor	Minimum 18 gallon capacity, 8+ cfm rating
Air Compressor Hose	Standard ¼ inch connection
